Funeral Flowers

When The Right Flowers Really Matter

Sometimes flowers can say more than words during difficult times. We create personal, unique and bespoke funeral flowers, working from a conversation not a catalog. I start with your needs and ideas to create floral arrangements reflective of the seasons. Our blooms are a world away from generic funeral flowers from a catalog filled with imported flowers. They are unique, seasonal and organically grown in the Firth Flock flower field – packed with variety, texture, freshness, scent and the best of British.

In keeping with our ethos, if we ever need to source flowers, we only support other British organic farms. This gives us the freedom to create something truly unique at any time of year, while also reflecting the beauty of each season.

We can also use flowers from your or your loved ones garden to create something personal filled with sentiment.

All our designs are compostable, environmentally friendly and suitable for natural burial grounds. We also have options for shareable funeral flowers that can be easily taken apart for family and friends to take home. We can also incorporate living plants and bulbs to be replanted on the grave or in loved ones gardens.

We are here to guide and support you each step of the way. Our pricing is transparent, so you can honor your loved ones while staying within your budget.

Please don't hesitate to reach out if you have any questions, no question is too small or silly. You can contact us at firthflockflower@icloud.com or on 07714 446091

We look forward to working with you...

How It Works

Funeral flowers – how I work

Working from my home studio, I grow many of my own flowers and specialise in using seasonal ingredients wherever possible. I'm happy to meet you to discuss flowers, but visits are by appointment only as I'm often out on deliveries or working at the plot. We can also chat via phone/video call.

I can use favourite colours, and, if you live locally to Ruthin, pick flowers from a well-loved garden. I always aim to help you find that special ingredient that will make the flowers reflect a life.

Funeral flower deliveries

I provide natural, garden-gathered style funeral flowers around North Wales. I can personally deliver all my funeral arrangements to you or your chosen undertaker (there is an additional charge to this), or you're welcome to order and to collect your funeral flowers from the farm near Llanfair Dyffryn Clwyd, Ruthin.

How to order

To order, contact me to discuss your ideas, requirements and delivery details.

On receipt of your order, an invoice will be prepared. Payments accepted via bank transfer or card. Any arrangements for collection must be paid for in full at the time of ordering.

Flowers should be special, so if there is something you'd like which you can't find on my website, don't hesitate to contact me to discuss possibilities. I love developing new ideas and often find that the loveliest funeral flowers are created this way.

Through the whole process we are only ever just an email or phone call away, so please don't hesitate to contact us at firthflockflowers@icloud.com or give us a call on 07714 446091

Fruit and Vegetable Display

If someone wasn't into flowers but was a keen fruit and veg grower, why not celebrate their life with funeral flowers that reflect what they loved to grow in their garden or allotment?

As vegetables are heavier than flowers, I'd recommend a smaller casket spray to keep the weight in reasonable bounds.

Wrapped Hand-Tied Bouquet

A simple hand-tied bouquet to complement larger arrangements from friends and family.

Boots with Flowers

If someone loved walking or gardening, or if they were a farmer why not fill their well-worn boots with flowers?
